CONSENT TO TREAT MINORS

Any person under the age of 18 years is considered a minor. A parent or guardian must consent to allow minor to be provided medical care, except in emergent situations when a parent cannot be located.

The following consent form is provided to parents at the initial visit in order to cover patients except in the following situations:

- Minors of at least 12 years old suspected of being assaulted.
- Minors of at least 12 years old with suspected or confirmed infectious disease.
- Suspected or confirmed pregnant minors.
- Members of the military.
- School-age minors deemed by a school official who are in need of medical care.
- Minors under written proxy care.
- Emancipated minors; at least 15 years old, living separately from their parents and are financially independent.
